

## STORY W13. PROTECT ADMIN PAGES

As an administrator

I want to be the only one who can manage customers

so that non authorized users cannot misuse or corrupt customer info.

### WIREFRAMES:

### ACCEPTANCE CRITERIA:

Depending on the role of a user, the user can perform certain actions. See the table below:

Actions vs. Roles	Not logged in	Customer	Administrator
Open Home Page	✓	✓	✓
Open User overview	✗	✗	✓
Open Product overview	✗	✓	✓
Add Product	✗	✗	✓

When the user tries to perform an action he/she is not allowed to, an error message is given and the login form is shown.
